Code restrictions may vary depending on your local building codes. For additional information, contact your local code department for IBC and IRC requirements.

NOTE:

Call numbers with an E meet the National Egress Codes requiring 5.7 SF clear opening. 20" (508) clear width and 24" (610) clear height, not to exceed a floor to sill height of 44". Code restrictions may vary depending on local building codes.

T= Tempered glass is standard for this size unit.

Floor to sill height is based on a rough opening height of 6' 10 1/2" (2096) (Inside opening height of 6' 10 1/4" (2090)).

These units (*) may optionally include a window opening control device tested to ASTM F 2090-10, which can be released from the inside without the use of a key, tool, special knowledge, or force greater than that required for normal unit operation. This device is designed to stop your window at a specified location. This device is not designed to prevent child falls.

Units with a frame size of 18 9/16" (472) x 23 1/2" (597) – 35 1/2" (902) x 71 1/2" (1816) can have an optional "window opening control device" installed at the factory. This device is designed to meet the ASTM F 2090-10 standard specification for window fall prevention device.

Picture windows in Ebony

PICTURE

- Fixed window available in either in-sash or direct glaze to meet various design needs.
- Direct glaze:
 - › Glass meets the frame directly without a sash for a simple, clean profile with more glass area.
 - › Available in sizes up to 9 ½ feet wide by 9 ½ feet high, not to exceed 49 square feet.
- In-sash:
 - › Designed to match profiles of operable windows in the Essential collection.
 - › Casement Picture windows available in sizes up to 6 feet wide by 6 feet high.
 - › Double Hung Picture windows available in sizes up to 5 feet wide by 6 feet high.
