Our low maintenance clad-wood products feature an extruded aluminum exterior finished in commercial-grade high performance PVDF fluoropolymer paint. Because our finish meets the toughest American Architectural Manufacturers Association (AAMA) 2605 standard, you can expect even our richest and boldest hues to resist fading and chalking even in harsh sun or extreme weather conditions. A palette of nineteen color options spans from muted, earthy tones to bold, rich colors and three pearlescent finishes. Custom color matching is also available to meet any design vision.

The American Architectural Manufacturers Association (AAMA) awards certifications to materials that pass numerous, rigorous tests. These tests simulate the harsh conditions that a finish will encounter throughout the life of the window or door. Passing these specification tests and achieving AAMA verification provides independent verification that our finishes are best-in-class.

Bahama Brown

**Finish samples are approximate and colors on screen can vary. Visit your local dealer to see actual color samples.*

Exterior Wood Options

Mahogany

For projects that call for the natural or historic beauty of wood exteriors, we offer a selection of high-quality exterior wood options, including Pine, Vertical Grain Douglas Fir, Mahogany and Primed Pine that have been factory-treated with a carefully tested wood preservative to help protect against moisture and the elements.
