

January 15, 2022

From: The Livingston Ridge Board of Managers

To: The Dobbs Ferry Village Building Department

This letter acknowledges and permits Mr. Renato DiRusso, owner of 55 Livingston Ave., to install an overflow pipe from the stormwater containment system at 55 Livingston Ave., to the stormwater drain on our property, as proposed in the attached diagram. The installation of this overflow will prevent damage to our property in the event of a major flood and we feel it is in all of our interests to have this work completed. It is important to us that this work is performed in accordance with village code and approved by an engineer associated with the village.

Sincerely,

A handwritten signature in cursive script that reads "Barbara Ginsberg".

Barbara Ginsberg  
President,  
Livingston Ridge Board of Managers
