

MEMORANDUM

TO: Stephen Hunter, Chair and Members of the Village of Dobbs Ferry Planning Board

FROM: Valerie Monastra, AICP
Sam Justiniano, Planning Analyst

CC: Dan Roemer, Building Inspector
Anthony Oliveri, P.E., Village Engineer
Dan Pozin, Village Attorney

DATE: January 26, 2024

RE: 11 Lyman Place

Ricardo Dos Anjos, 11 Lyman Place LLC, (the “Applicant” and “Owner”) is seeking Site Plan and Subdivision approval to construction two new one-family dwellings while subdividing the existing lots through a lot line change into two lots, labeled Lot No. 1 and Lot No. 2. The property is located at 11 Lyman Place, Section Block and Lot 3.60-22-3 (“Project Site”) and is located in the OF-6, One Family Residential 6, zoning district.

GENERAL AND PROCEDURAL COMMENTS

1. **SEQR.**
 - a. This application is categorized as an Unlisted action under SEQR because it consists of a minor subdivision. The Planning Board should indicate their intent to be Lead Agency for the Project.
 - b. The Applicant has provided a Short Environmental Assessment Form Part 1 and have attached a Part 2 and 3 for your review.
2. **Site Plan Approval.** This application requires Site Plan approval by the Planning Board per Section 300-52 of the Zoning chapter. A public hearing will be required for Site Plan approval.
3. **Subdivision.** This application requires Subdivision approval by the Planning Board per Article XIV Subdivision of Land of the Zoning chapter. A public hearing will be required for Preliminary Plat approval. The Applicant needs to provide a preliminary subdivision plat for our review.

4. **Zoning.**

- a. Any existing non-conforming conditions are proposed to be removed to allow for the construction of the proposed dwellings.
- b. The Applicant has provided a zoning table for each lot.

5. **Architectural and Historic Review Board.** The Project will also require review by the Planning Board, as the AHRB, to confirm that it is in accordance with the design guidelines established in Appendix G of the Village Code.

6. **Local Waterfront Revitalization Consistency.** The Planning Board will need to make a consistency determination with the Village's LWRP per §300-52 (D) as part of its final Site Plan approval. The Applicant has provided a Coastal Consistency Form.

OUTSTANDING SITE PLAN COMMENTS

1. **Lighting.** The applicant has provided an exterior lighting plan, Sheet S-4 of the most recent plans. It appears that these are compliant with §300-41 of the Zoning chapter.
2. **Trees.** It appears that the existing trees on the site will be removed. The Village's Landscape consultant will review the provided plant list to determine if the planting plan will meet §300-51(i), Tree Valuation. **As previously noted, please provide the total aggregate diameter of trees proposed for removal and the total aggregate diameter of trees that are proposed to be planted. The Planning Board may want to refer the landscape plan to the Village's landscape consultant.**
3. **Curbs.** The Project will require two curb cuts for the driveways associated with the Proposed Buildings. The Superintendent of the Department of Public Works should be consulted to review and confirm compliance.

SUBMISSION MATERIALS

The following materials were submitted by the Applicant and examined by our office for the preparation of this review:

- Response Letter to the Planning Board dated January 18, 2024
- Architectural Plans by Christina Griffin, last revised January 18, 2024

Project:

Date:

Short Environmental Assessment Form
Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?		
2. Will the proposed action result in a change in the use or intensity of use of land?		
3. Will the proposed action impair the character or quality of the existing community?		
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?		
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?		
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?		
7. Will the proposed action impact existing:		
a. public / private water supplies?		
b. public / private wastewater treatment utilities?		
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?		
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?		
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?		
11. Will the proposed action create a hazard to environmental resources or human health?		

Project:

Date:

Short Environmental Assessment Form

Part 3 Determination of Significance

For every question in Part 2 that was answered “moderate to large impact may occur”, or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
