Dan,
Thank you for taking the time to explain the situation.
Sarah,
Thank you for your help getting all the necessary elements for the meeting.

I hope you can get me the permit before the next meeting. The tree company was lined up to do the job this week. Cutting this weak trees is the only thing I can do at the house, knowing that for the bathroom/kitchen/windows renovation I have to wait 1 more month to receive the permit.

It's really unfortunate that the committee did not just impose me planting a number of native trees.

I will be planting Rheingold Western Arborvitae.
I think you mentioned 4, but I can plant more. Not an issue.

Hopping you can help.
Sincerely

Kika
