Subject: Authorize the Fire Department to purchase a new Fire Chiefs vehicle, and declare the old one as surplus equipment.

Date: March 30, 2022

In the 2022-2023 fiscal budget, the Fire Department requested to purchase a new Fire Chiefs vehicle to replace our current 2016 Chevrolet Tahoe. This current vehicle needs approximately \$8,000 dollars' worth of work and is out of warranty. Generally we like to keep these vehicles on a 6 to 7 year cycle. By us following this cycle, we optimize the resale value of the vehicle we are trying to sell, and we do not incur the costs of what it would be to repair them.

During the budget process while working with the Village Administrator, and Village Treasurer, it was determined that we have the funds in the Fire Departments current 2021-2022 operating budget, along with the approximate resale value of the current Chiefs vehicle which is about \$30,000 to cover the cost of a new Chiefs vehicle.

At this time, I am requesting that the Board of Trustees authorizes the Fire Department to purchase a new 2022 Chevrolet Tahoe from DeNooyer Chevrolet off of NY State contract, for the amount of \$64,273.50, using the funds in the current 2021-2022 Fire Department operating budget, along with the funds we would be receiving in return from the sale of the current Chiefs vehicle.. I am also requesting that the Board of Trustees declares the current 2016 Chevrolet Tahoe as surplus equipment contingent upon the delivery of the new vehicle.

Thank you for your time and consideration on this matter, please contact me with any questions.
