## How to report points for a member who was on **MILITARY LEAVE**

---

We encourage you to complete and return this sheet along with the final year-end listing for each participant who was on Military Leave at any point during the year.

Member name: Edward C. Knecht III

Date member went on Military Leave: August 21, 2020

Date member returned from Military Leave: \_\_\_\_\_ (if applicable)

"Full Year"

- ☐ **If the member was on Military Leave for the entire year, enter "50" points.**  
Indicate on the listing that the member was on leave for the entire year - write "Full year".

- ☐ **If the member was on Military Leave for only part of the year...**

Enter the number of points earned prior to or upon returning from leave: 0 pts

Prorate the number of points earned on Military Leave.

$$\left( \frac{\# \text{ of months}}{12} + \frac{\# \text{ of days}}{365} \right) \times 50 \text{ pts}$$

$$+ \underline{50} \text{ pts}$$

Add the point rows above for the member's annual total:

$$= \underline{50} \text{ pts}$$

---

### Example:

A member earns 35 points as an active member through August 21<sup>st</sup>. He went on Military Leave beginning August 21<sup>st</sup> and was out for the remainder of the year.

Therefore, the number of complete months on leave is 4 (September through December), and the number of days on leave is 11 (August 21<sup>st</sup> through August 31<sup>st</sup>).

$$\text{Prorated: } \left( \frac{4}{12} + \frac{11}{365} \right) \times 50 = 18 \text{ pts}$$

$$\text{Total: } 35 + 18 = 53$$

---

You can also prorate by calculating the total number of days between dates. There are several websites that you can use to do this. Try searching "calculate days between dates" and enter the date range (including the end date). Divide this number by 365 and multiply by 50 to get the number of prorated points for Military Leave.

**Note:** Military Leave Service Credit will be awarded based on the provisions of the Program.
