

Address listers in your neighborhood.

Help the U.S. Census Bureau count everyone in the right place.

➤ **Address listers help shape the future through data collection.**

Address listers, also known as canvassers, play a critical role in preparing for the 2020 Census. From August to mid-October 2019, listers will be verifying addresses and walking in neighborhoods nationwide.

➤ **Address listers are members of your community.**

Listers are hired locally. About 40,000 listers are being hired for this major field operation.

➤ **How to recognize an address lister.**

Listers must present their ID badge which includes their photograph, a U.S. Department of Commerce watermark, and an expiration date. They may also carry a Census Bureau laptop and a bag with the Census Bureau logo. If you have any questions about address listers, please contact the regional census center in your area at <http://2020census.gov/contact-us/rcc>.

➤ **Address listers keep your data safe and secure.**

Listers are vetted through a process just like every other census worker. Each applicant offered a position must go through a thorough background check which includes fingerprinting.

All Census Bureau employees are required to follow strict guidelines and confidentiality laws. This includes taking a lifetime oath to protect the confidentiality of data they receive. Anyone who violates this oath is subject to as much as \$250,000 in fines and up to five years in prison.
