Why Should *Dobbs Ferry* Care About High Housing Costs?

High housing costs don't only impact the folks who can't afford to live here.

- Housing that's varied and that's affordable contributes to a balanced and well-functioning Village
 - Diversity, equity, addressing segregation
 - Room for seniors, young families, recent grads
- High housing costs negatively impact residents, local employers and local businesses
 - Increased traffic
 - Employers need workers at all wage levels
 - Cost-burdened people spend less on other stuff

How can we improve housing affordability?

The Housing Continuum

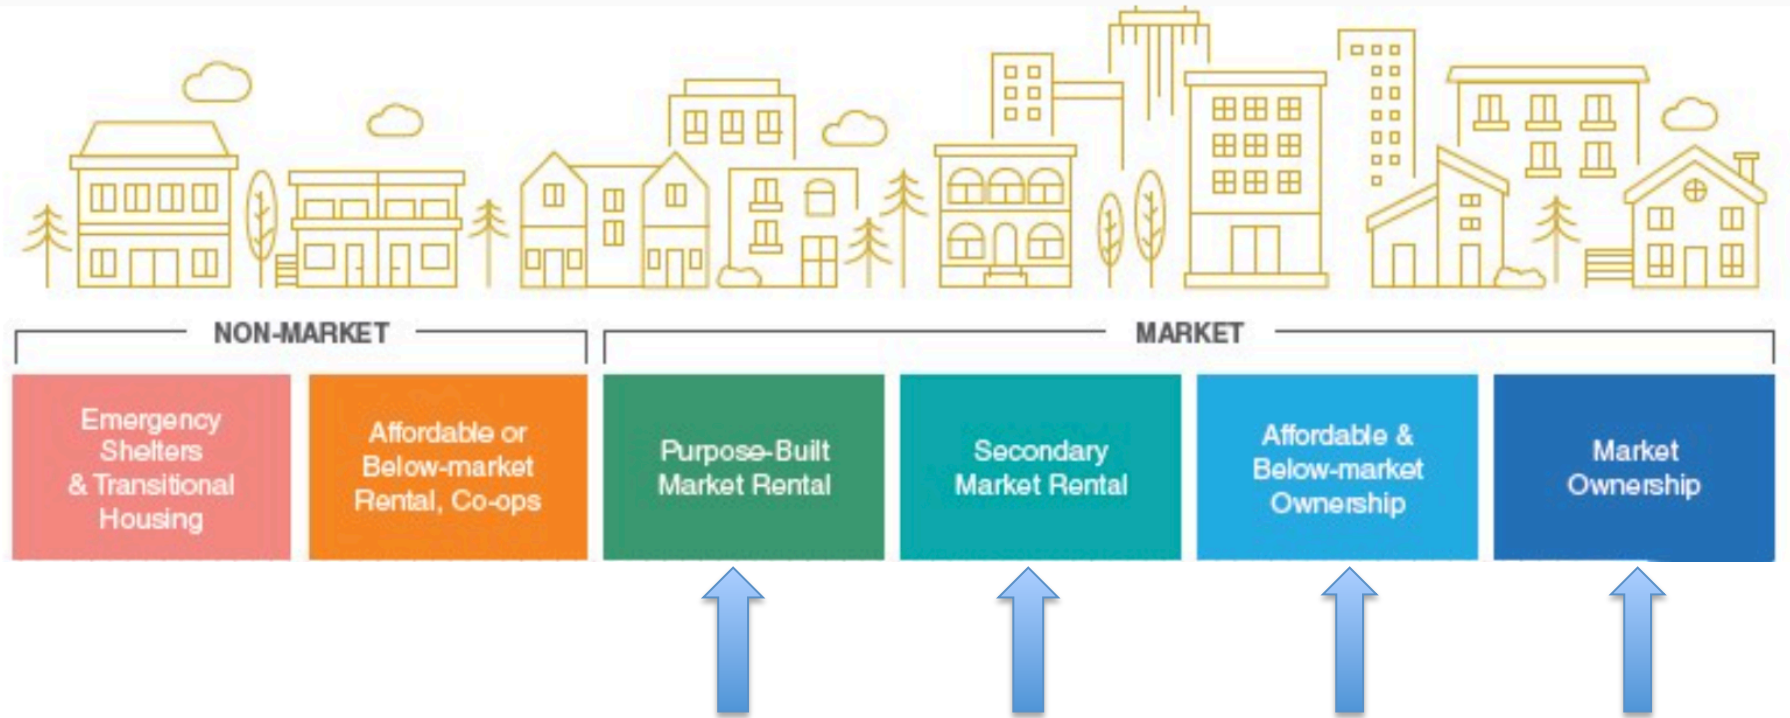

How can we improve housing affordability?

1. Build **A**ffordable **H**ousing that is legally designated and set aside by a government in terms of price and who qualifies.

How can we improve housing affordability?

2. Increase the supply of a variety of types of unregulated housing to accommodate households of different sizes, incomes, and needs

What do we mean by “Affordable Housing”?

- Marketed in accordance with the Westchester County Fair & Affordable Housing Affirmative Marketing Plan
- A housing unit that’s affordable to (and set aside for) a household whose income does not exceed a set percentage (up to **60%** for renters or **80%** for buyers) of **Area Median Income (AMI)** for Westchester County
- Potential renters or buyers apply through a not-for-profit HUD-approved housing agency that verifies qualifications, maintains waiting lists, and places families via **lottery**.

What does Affordable Housing look like?

What do we mean by “affordable housing”?

“All housing is ‘affordable’ to someone. The problem is that all households can’t afford all housing. Finding the balance to addressing housing costs and meeting the needs of the many different household shapes, sizes and interests is the challenge.”
